PROFESSIONAL SUMMARY

Business and data analyst with 2+ years of hands-on operations analytics across telecom and university dining operations, backed by an M.S. in Computer Information Systems (Colorado State University) and a B.E. in Computer Science. Uses SQL, Python, Tableau, and Power BI to root-cause problems, automate KPI reporting, and drive measurable process improvements. Available immediately.

CORE SKILLS

Analytics & Programming: SQL (PL/SQL), Python (pandas, NumPy, scikit-learn), R, ETL pipelines, statistical modeling, machine learning

BI & Visualization: Tableau, Power BI (DAX, Power Query), Excel (advanced: pivot tables, Power Pivot, VBA macros), Google Sheets

Business & Process: Root cause analysis, KPI reporting, trend analysis, ROI and cost variance analysis, demand forecasting, process improvement, SOP documentation, Agile

Tools & Platforms: Oracle (fundamentals), JIRA, Git, ERP/CRM/billing systems, Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Data Analyst & Operations Supervisor

Aug 2025 - May 2026

Colorado State University, Ram's Horn Dining | Fort Collins, CO

- Analyzed labor, inventory, and sales data for a high-volume university dining operation, identifying inefficiencies and cost-saving opportunities for management.
- Delivered self-directed, recurring KPI reporting to leadership, translating floor-level operational data into staffing and purchasing recommendations.
- Supervised student staff and daily operations while driving process improvement projects from root cause analysis through implementation and follow-up measurement.

Co-Owner & Business Operations Analyst

Sep 2022 - Apr 2024

Vodafone Idea (Cellular Franchise) | Bhimavaram, India

- Owned revenue cycle analytics end to end, monitoring billing, collections, and payment flows across the franchise subscriber base.
- Built executive-level Excel dashboards tracking revenue, churn, and operational KPIs to guide ownership decisions.
- Performed root cause analysis on billing and payment exceptions, closing recurring revenue leakage points and improving vendor SLA compliance.
- Managed cross-functional workstreams across sales, customer support, and back office, driving ROI-focused process improvements across the customer lifecycle.

PROJECTS

OpsIQ: Operational Intelligence Platform (M.S. Capstone) | Python, SQL, Dashboards

Built an end-to-end analytics platform automating supply chain and process monitoring, detecting bottlenecks via root cause analysis, and surfacing real-time KPI dashboards covering supplier performance, lead times, and spend.

Marathon SQL Database Project | Advanced SQL

Designed a fully normalized relational database and wrote advanced SQL queries to power business reporting.

Executive Power BI Dashboard | Power BI, DAX, Power Query

Built a multi-page executive dashboard with DAX measures for stakeholder-facing KPI reporting.

YouTube Transcript Summarizer | Python, NLP

Developed an AI/NLP tool that extracts and summarizes key insights from unstructured video transcripts, improving processing speed by 60%.

EDUCATION

M.S. Computer Information Systems

2024 - 2026

Colorado State University | Coursework: Advanced SQL, Power BI & DAX, AI & Business, IT Management, C# Application Development

B.E. Computer Science & Engineering

2020 - 2024

RMK College of Engineering & Technology, India | Coursework: Machine Learning, NLP, Python
